Anna Wildeman _____ x _____ Owen McDonough _____

Subject: Hypoxia Task Force webinar: Illinois EPA presentation on the State's Multi-stakeholder Nutrient Loss Reduction Strategy

Meeting Requested By: Tom Wall **Date:** August 5, 2018

Office Director Approval: John Goodin *[Signature]* **Date:** 8/8/18

Date Staff and [[Illinois EPA]] will be ready for this meeting by:

Illinois EPA has available the following times:

August 20, 2018

☐ 12-1pm ET;

☐ (1) one hour between 2-3:30pm ET;

☐ 4:30-5:30pm ET

August 30, 2018

☐ Anytime between 10am ET and 5pm ET

Latest date meeting can happen by: August 30, 2018 anytime between 10am ET – 5pm ET

Time Needed for meeting: 20 Minutes _____ 45 Minutes _____ 1 Hour _____ x _____ Other _____

Purpose of the meeting:

AA decision expected?

Yes _____ No x _____

Provide AA with information?

Yes x _____ No _____

What specifically is to be decided or presented? Why is a meeting needed?

At the January 2018 Hypoxia Task Force meeting, AA Ross requested and the Task Force agreed to hold a series of webinars to take a “deep dive” into state nutrient reduction strategies and learn about best practices for engaging a broad group of partners and stakeholders to make progress. This webinar would be the first in the series; Illinois has volunteered to present. This meeting must take place prior to the September 17-18 Hypoxia Task Force meeting in Baton Rouge, when the Task Force will assess this efficacy of this approach for spurring progress and may then schedule additional state strategy webinars.

AA Ross will provide opening remarks for this webinar during which representatives from Illinois will discuss partnerships and implementation support for the State Nutrient Loss Reduction Strategy. The strategy is one of three HTF state strategies based on a specific science assessment. A Policy Working Group comprised of stakeholders from federal and state agencies, industry, agriculture, wastewater treatment agencies, and non-governmental organizations developed the strategy and oversee its

implementation. The Illinois strategy has helped to catalyze a number of innovative solutions for making progress.

Who will attend the meeting?

Mandatory Attendees (Give Full Names as listed in Outlook and Identify Office):

David P Ross ross.davidp@epa.gov OW
Anna Wildeman: Wildeman.anna@epa.gov OW
Benita Best-Wong: Best-Wong.Benita@epa.gov

Subject: Thanks for getting #BlockchainSmart with us

Thanks for getting #BlockchainSmart with us!

On Wednesday, August 1st the U.S. Chamber of Commerce, Chamber Technology Engagement Center (C_TEC), hosted Get Smart on Blockchain. Discussions ranged from the basics of blockchain to the emerging technology's potentially transformative impact on industries such as: healthcare, insurance, retail, agriculture, and even government.

More than 500 industries and government professionals joined for the opportunity

to hear from a diverse group of speakers. Attendees walked away with a deeper knowledge of blockchain and a new perspective on the future of this emerging technology with a focus on America's role in shaping it.

Thank you to those who attended the event. We hope you enjoyed the program and found it a good use of time. For those not able to make it, please find a link that will take you to a recording of the event below.

We look forward to continuing the conversation.

Enjoyed it so much you want to see it again?

Subject: Technically Speaking - July 2018

Friends,

Typically in August things quiet down as members of Congress go home for recess but this year is different as the Senate will remain in session and issues such as FAA reauthorization, the AV START Act and privacy remain front and center on the agenda. Let's talk one hot issue this summer—privacy.

This month, the Chamber's President and CEO Tom Donohue penned a blog stating that "the Chamber is developing privacy principles and ultimately a legislative proposal that could be considered by Congress to prevent a patchwork of state rules that would pose a nightmare for businesses that operate across state lines." C_TEC is helping to lead the development of these principles. While we have nearly completed drafting a set of baseline privacy principles, we are only just beginning our efforts with regard to crafting a federal solution.

At this same time, C_TEC continues to track the efforts in California to amend AB-375, the California Consumer Privacy Act of 2018. This month Jordan Crenshaw, Assistant Policy Counsel, spoke on a panel for the Internet Caucus Academy about the law's negative effects on business as well as the need for federal solutions to privacy. At the same time, C_TEC continues to monitor potential action in other states.

To get engaged with our privacy efforts, please contact Jordan.

Enjoy the abbreviated recess and we look forward to working with you this summer!"

Tim

THE DOWNLOAD

On July 9, C_TEC hosted Sarah Boot, Policy Advocate at the California Chamber of Commerce, on a call to discuss the California Consumer Privacy Act and next steps.

On July 9, the Chamber's President and CEO Tom Donohue penned a [blog](#) discussing the Chamber's efforts to address data privacy including its privacy principles initiative.

July 9 to July 11, C_TEC participated at AUVSI's Autonomous Vehicle Symposium in San Francisco in which many of our members held demonstrations and presented on autonomy.

On July 10, C_TEC hosted an event with BSA | The Software Alliance focused on Artificial Intelligence and the interplay between government, academia and industry. You can watch the event [here](#).

On July 13, C_TEC's New Economy Working Group held its quarterly in-person meeting to discuss efforts around the independent workforce at the state and federal level.

On July 17, C_TEC's Autonomous Vehicle Working Group held its quarterly in-person meeting to discuss our upcoming agenda for the remainder of the year and the AV START Act.

On July 18th, C_TEC joined forces with the Chamber Capital Markets Competitiveness (CCMC) to host a joint event to discuss the changing world of fintech and the complex regulatory landscape. Read the [Chamber's position paper](#) outlining our principles on fintech.

On July 19, Julie Stitzel moderated a panel focused on retirement portability at a Raising Retirement Summit hosted by the U.S. Chamber's Employment division.

On July 24, C_TEC's UAS Working Group hosted a call featuring an FAA reauthorization update from Jackie Keshian, staffer the Senate Committee on Commerce, Science, and Transportation

On July 26, Jordan Crenshaw participated in a panel hosted by the Internet Caucus Academy on Capitol Hill along with CDT, Common Sense Media and the Niskanen Center to discuss the need for federal privacy legislation as well as the Chamber's privacy principles initiative.

Jordan at the privacy principles panel hosted by the Internet Caucus Academy

Alex Rodrigues of Embark Trucks speaking at the AV symposium in San Francisco.

Tim talked tech and jobs at the RealClear Politics: Turning Global Gains into Local Success event last week.

Michael Kratsios, Deputy Assistant to the President and Deputy U.S. Chief Technology Officer shares the government's strategy on AI.

#WHATSNEXT

On August 1, C_TEC will host Get Smart on Blockchain which will bring critical stakeholders together to explore the future of blockchain and America's role in it. Get Smart is not about individual topics, but an emerging technology ecosystem. Nicolas Cary, co-founder of Blockchain, will deliver the keynote address.

On August 6, C_TEC will host a Telecom Committee working group call at 4:00 PM (eastern).

On August 9, at 2:00 PM (eastern) , C_TEC will host a New Economy Working Group call. For questions about this meeting or our New Economy work in general, please email Julie Stitzel at jstitzel@uschamber.com.

On August 20, C_TEC will host a Telecom Committee Working Group call at 4:00 PM (eastern).

On August 22 -NOTE DATE CHANGE!, C_TEC will host an in person UAS Working Group meeting 2:00 PM - 3:00 PM (eastern) at the US Chamber of Commerce (1615 H Street NW). For questions about this meeting or our UAS working group in general, please email Julie Stitzel at jstitzel@uschamber.com.

On August 23, C_TEC will host a AV working group call from 2pm-2:45 PM (eastern). For questions about this call or our AV work generally, please email Jordan Crenshaw at jcrenshaw@uschamber.com.

On September 12, Tim will be at the Chamber's Regional Government Affairs Conference in New Orleans to lead a discussion on tech.

On September 27, Tim will be in Chicago to address the Corporate Counsel Institute at the Northwestern Pritzker School of Law.

On October 18th, C_TEC will partner with the Memphis IT Council and the Memphis Chamber of Commerce for TecNation: Memphis | Age of Disruption.

Improving Access to Water Data and Information

The U.S. Chamber of Commerce, in collaboration with University Corporation for Atmospheric Research and U.S. Water Partnership is co-convening a high-level roundtable discussion, entitled "Improving Access to Water Data and Information." This invitation-only event, scheduled for Friday October 12, 2018 at the Chamber, will assemble approximately 40 interagency government leaders, scientists, and private sector companies in the cloud and technology sectors to better define the boundary conditions and private sector role in developing water products and services. Discussions will also highlight the current programs and priorities across key federal agencies and how the private sector can support them. Please contact Tim Day or Chuck Chaitovitz, vice president, Environmental Affairs and Sustainability for more information.

#MEMBERHIGHLIGHTS

Nextdoor

HQ Location: San Francisco, CA
Total Employees: 101-250
Website: <https://nextdoor.com/>

How did Nextdoor come to be? How does it work?

Nextdoor's co-founders felt strongly that there was a gap in how technology was bringing people together. Services existed to connect you to your friends (Facebook), professional network (LinkedIn) and interests (Twitter) but prior to Nextdoor, there was not a service to connect the world to the most important community in most people's lives -- your neighborhood and local community. Inspired by much of the research and writings of Dr. Robert Putnam ("Bowling Alone") and Marc Dunkelman ("The Vanishing Neighbor"), Nextdoor's multi-step verification process ensures that your neighborhood on Nextdoor is made up of real people using their verified real addresses. This lack of anonymity helps spark trust and accountability on the platform as neighbors interact.

The sense of community being built in more than 175,000 Nextdoor neighborhoods across the country (85% of US neighborhoods) is unique in that it connects members not through their own preferences and favorites, but by geographic proximity. This emerging form of social infrastructure unites people who might not otherwise know one another and increases empathy, safety, and the ability to get things done.

What services does Nextdoor offer local and small businesses?

Nextdoor's mission is to provide a trusted platform where neighbors work together to build stronger, safer, happier communities. Local businesses play a critical role in creating strong and healthy neighborhoods. Recommendations for these local businesses have always been the most popular discussion topic on Nextdoor, accounting for 28% of all neighbor-to-neighbor conversations because a personal, authentic recommendation from a neighbor is an incredibly valuable catalyst in helping members get things done and build community.

Nextdoor is a great place to hear from businesses that can provide value to your local life. Over the years, we've continued to lay the foundation to strengthen the relationship between neighbors and the local businesses in their neighborhoods; structuring recommendations to make them quick and easy to locate, and allowing millions of local businesses claim their own page on Nextdoor free of charge.

Local businesses can use Nextdoor to:

- Engage with Nextdoor members who are often repeat customers to their close proximity to the business.
- Respond to comments to establish personal connections and show that you care about your customers.
- Become a Neighborhood Favorite. See where your recommendations come from and which neighborhoods choose you as their neighborhood favorite.

What role does Nextdoor have in the new economy?

80% of disposable income is spent within 10 miles of home and \$6 trillion of annual consumer spending is driven by word of mouth. With 76% of Nextdoor members saying that they have been influenced by a neighbor recommendation, the platform is at the nexus of how to brand your business or service at a truly local level.

Recommendations have been happening on Nextdoor since our inception - in fact, the discussions surrounding businesses and services are the most popular topic on the platform. Uniquely, Nextdoor members focus their conversations on their specific neighborhoods, so the discussions and recommendations are all about being "local." The value of these recommendations from a verified neighbor far outweighs a review from a stranger - it involves a greater sense of trust, connection and commonality.

Your CEO spoke on a panel at the Chamber this week on disaster relief – tell us how a neighborhood website can help after a natural disaster.

We have always known that technology could play a role in bringing neighbors together, whether it was for straightforward uses, like finding a babysitter or a lost dog or for critical things, like helping out in times of crisis. As FEMA and other disaster relief organizations often say, throughout the first 48 to 72 hours of a crisis, neighbors are typically the best and first responders to offer assistance.

In the natural disasters of 2017, Nextdoor enabled neighbors to post that they were stranded on their roof, with water having risen through their home and emergency services overwhelmed, and within minutes a neighbor would come to their rescue. An elderly woman unable to board up her windows asked for an received help from her neighbors to secure her home. A nurse in Santa Rosa used Nextdoor to create an "adopt-a-family" network between her Santa Rosa colleagues who lost everything in the North Bay California fires and her Nextdoor neighbors helped get fire victims get back on their feet. Moreover, Nextdoor has partnered with over 3,000 public agencies across the country to ensure more direct communication between police, fire, offices of emergency management and the residents they serve, which is uniquely valuable during times of crisis.

Why are you members of the Chamber/ C_TEC?

Local businesses play a critical role in not only the overall economy, but in creating strong and healthy neighborhoods. We are thrilled to be a member of the C_TEC as we look to stay apprised of pressing policies that might impact the businesses we are trying to serve.

Subject: Watch Online | Get Smart on Blockchain

Get #BlockchainSmart...
from the comfort of your own office

In 15 mins, C_TEC will explore the power of blockchain and debate policy ramifications by convening leading innovators, policy leaders, thinkers, and investors. What was once a fad about Bitcoin is now mainstream. Get Smart on Blockchain is more than a regular DC policy event. Its purpose is to bring critical stakeholders together to explore the future of blockchain and America's role in it.

livestream begins in 15 minutes!

1:00 p.m., edt.

Subject: Are you registered?

Guest,

At C_TEC , we promote the role of technology in our economy and advocate for rational policy solutions that drive economic growth, spur innovation, and create jobs. We also work to showcase the benefits of emerging technologies and how they are positively impacting different sectors.

Blockchain is an excellent example of the potential for a technology to change the way we work, communicate and live. This coming Wednesday, August 1st, C_TEC will host a [half day event](#) in Washington, DC, to explore the power of blockchain and debate policy ramifications by convening leading innovators, policy leaders, thinkers, and investors. Experts from Blockchain.com, Walmart, Accenture, ConsenSys, Guardtime and more will explore some of the use cases for the technology in agriculture, health, government, and financial services. We'll also provide attendees with an informative 101-session to lead our discussion. I'd be delighted to have you join me as my guest. [Register for Get Smart on Blockchain](#) being held at the US Chamber of Commerce, 1615 H Street NW, Washington, D.C. on August 1st beginning at 12:30pm.

Whether you view yourself as an expert or an amateur, can discuss mining in great detail, or are wondering the differences between bitcoin and ether, you'll be sure to learn valuable information at [Get Smart on Blockchain](#) next week. I hope to see you there.

Best,

Tim Day
Senior Vice President
U.S. Chamber Technology Engagement Center

C_TEC Announces New Working Group Co-Chairs

WASHINGTON, D.C. — The U.S. Chamber of Commerce Technology Engagement Center (C_TEC) today announced the co-chairs for its three working groups: Autonomous Vehicles (AV), New Economy, and Unmanned Aerial System (UAS); as well as the Telecommunications & E-Commerce Policy Committee. The working groups and policy committee lead campaigns designed to educate policymakers, regulators, the business community, and the public on benefits of the different technologies across the economy. Each working group meets regularly throughout the year.

“The way companies operate and serve their customers will continue to change with every new innovation,” said Tim Day, senior vice president of C_TEC. “With these rapid changes, it’s as important as ever to seek diverse input from business leaders across industries. I’m grateful to each of the co-chairs for their commitment to working with C_TEC to promote American innovation and ingenuity.”

The C_TEC working group and committee co-chairs are:

Autonomous Vehicles

Marjorie Dickman, Intel
Johnny Morris, Embark
Jordan Quinn, The Hartford
Robert Schill, HERE Technologies

New Economy

Vikram Aiyer, Postmates
Philip Minardi, Expedia
Jake Swanton, Lyft

Unmanned Aerial Systems

Ben Gielow, Amazon
Matt Satterley, AirMap
Ryan Gammelgard, State Farm
Katie Ott, Exelon

Telecommunications & E-Commerce

Melissa Tye, Verizon

More information about the working groups and committee as well as full biographies of the co-chairs are available online [here](#).

The working groups and policy committee are made up of a diverse set of interests and industries converging around a common goal to advocate for policy solutions that promote emerging technologies. Over the past year, they have lead efforts to pass legislation calling for autonomous vehicle testing, convened policy discussions with administration and agency officials, and sent letters of support to Congress on specific technology policies. Congressional and administration officials and staff regularly attend and address the working group and policy committee meetings.

For information on the working groups and future meetings, please contact C_TEC@uschamber.com

C_TEC brings policymakers and tech industry leaders together to advance policies that promote the role of technology in the economy. It also partners with other divisions within the U.S. Chamber on issues such as national security, transportation, health care, and labor.

The U.S. Chamber of Commerce is the world’s largest business federation representing the interests of more than 3 million businesses of all sizes, sectors, and regions, as well as state and local chambers and industry associations.

Subject: Fwd: Meeting Forward Notification: Meetings with Mark Vergnano, CEO of Chemours

Hey gang, just a couple quick questions, given Mark is coming to Washington specifically for this meeting we were hoping we could have 45 minutes (rather than the 30 minutes on the calendar invite). Please let us know if that's possible. Second, it would be helpful to have a list of EPA attendees. Thanks

Subject: Invitation to Speak at Cross-Cutting Issues Group Meeting

Dear Assistant Administrator Ross -

I am writing on behalf of the Cross-Cutting Issues Group (CCIG) to invite you to speak at our September 20, 2018 meeting in New Orleans. CCIG is an ad-hoc coalition of more than a dozen electric generating companies with diverse assets that monitors regulatory and litigation developments in the areas of waste, water and wildlife.

Our quarterly meetings are informal and discussion oriented. While the majority of the meeting consists of presentation by Baker Botts attorneys, we routinely host speakers from relevant agencies and environmental and other groups. For example, several years ago we were fortunate enough to host Susan Bodine at one of our meetings. Our group is following a number of EPA rulemaking initiatives, including the definition of "Waters of the U.S." and hydrological connection, and permitting initiatives, including on state water quality standards. I am confident that your remarks would be received warmly and with great interest.

We are flexible as to the schedule of events for the day and could accommodate you at any time between 10 am and 4 pm on September 20.

Thank you for considering our invitation; please do not hesitate to contact me if you have questions or would like additional information regarding CCIG.

Best,

Megan

Subject: Get Smart on Blockchain

Guest,

As means of introduction, I am Stacey Hutchinson, Director of Strategic Partnerships at the Chamber's Technology Engagement Center. I'm writing today to invite you to [Get Smart on Blockchain](#) being held at the Chamber next week on August 1st sponsored by Accenture with special content provider Bloomberg. Because of your interest in tech, I'd be happy to include you as my special guest; [click here to register](#).

Blockchain technology has the potential to transform every industry. In Washington, most of the conversation has centered on cryptocurrency or data security, but what about the power the technology may harness across sectors? What will the blockchain policy landscape look like?

On August 1st, C_TEC will explore the power of blockchain and debate policy ramifications by convening leading innovators, policy leaders, thinkers, and investors. Discussions will range from a 101 session to

blockchain in agriculture, fintech, health, and regulation.

Find additional details on our [website](#).

I so hope to see you next week on August 1st at 1pm, and please don't hesitate to reach out in the interim.

All the best,
Stacey

Subject: Welcome back to DC

Good morning, Dave,

Happy New Year, and welcome back to DC! I'm sure you've got quite a busy schedule, but if you have any free time Tom Jackson and I would enjoy getting together for lunch (or drinks after work) whenever convenient. Best wishes – and hope to hear from you soon.

Bart

P.S. – I sent an earlier copy of this email to a ross.david@epa.gov address without the “P” – not sure if that got to you or perhaps to a colleague in the Office of Water.... If you already received it, sorry for the repeat delivery.

Office of Water Meeting Request Form

Date Received in OW: _____

OFFICE OF WATER MEETING REQUEST FORM

FOR: David Ross ☒ Lee Forsgren _____ Anna Wildeman ☒
Benita Best-Wong ☒

Subject: Hypoxia Task Force (HTF) State Strategy Webinars

Meeting Requested By: Tom Wall Date: 8/22/2018

Office Director Approval: Sandra Connors (for John Goodin) Date: 8/22/2018

Date Staff will be ready for this meeting by: 10 meetings, one per month starting October 1, 2018

Latest date the last of 10 meetings can happen by is: July 31, 2019

Time Needed for meeting: 20 Minutes _____ 45 Minutes _____ 1 Hour ☒ Other _____

Purpose of the meeting:

AA decision expected?

Yes _____ No ☒

Provide AA with information?

Yes ☒ No _____

What specifically is to be decided or presented? Why is a meeting needed?

David Ross and Benita Best-Wong requested this series of webinars. In August 2018, Illinois presented during a first webinar; Iowa will make a presentation on its strategy at the face-to-face HTF meeting in September 2018.

The rest of the HTF states will make presentations on their strategies during a series of 10 one-hour webinars, one per month, from October 2018 through July 2019. During each webinar, one HTF state will present on its nutrient reduction strategy; there will be time for engagement with Dave/others.

Who will attend the meeting?

Mandatory Attendees (Give Full Names as listed in Outlook and Identify Office):
